

EMPYR[™]
PREMIER FORAGES

Alta
seeds

A WORLD-CLASS FORAGE SORGHUM LINEUP

Not all forage sorghum seeds are equal in their performance. But with EMPYR Premier Forages from Alta Seeds, you can have confidence that your choice of forage will deliver excellent results year after year.

EMPYR Premier Forages are our top-of-the-line, carefully selected hybrids that consistently outperform and outproduce in field and feed. Our team continually evaluates the performance of these products against others in our global pipeline to ensure that only the best of the best are included in the EMPYR group. These forages offer high yield, excellent standability, and strong performance even in extreme environments.

THE **EMPYR** LINE IS BUILT ON A WIDE VARIETY OF HYBRID TYPES THAT PROVIDE SOLUTIONS FOR SPECIFIC GRAZING OR SILAGE NEEDS, SUCH AS:

APHIX™ SCA TOLERANCE, the best-in-class option
for combating pressure from sugarcane aphids

BMR-6 for increased palatability and digestibility,
supporting more weight gain and milk production

BRACHYTIC DWARF for superior standability and high
leaf-to-stalk ratios

PHOTOPERIOD SENSITIVITY (PS), for a wide harvest window

DRY STALK for reduced moisture levels, for earlier
baling and storage

DISCOVER THE **WORLD-CLASS HYBRIDS** THAT PROVIDE THE BEST VALUE AND RETURN ON YOUR DOLLAR:

**WORLD-CLASS
GENETICS AND
INNOVATION**

**OUTPERFORMS
IN FIELD
AND FEED**

**EXCELLENT
QUALITY AND
TONNAGE**

ADV F7103 NEW
**EARLY-SEASON BMR-6
FORAGE SORGHUM**

Fast, efficient and innovative. Early maturity combined with dry-stalk technology provides an option for short-season regions. Available in BMR-6, so no sacrificing on late plantings or double crop situations.

AF7401
**FULL-SEASON BMR-6
FORAGE SORGHUM**

The original, industry-standard brachytic dwarf with BMR-6 traits for high productivity and palatability, exceptional forage qualities, and excellent standability and plant uniformity.

ADV F7232
**MID-SEASON BMR-6
BRACHYTIC DWARF
FORAGE SORGHUM**

An earlier option BMR-6 brachytic dwarf with excellent nutritional value and palatability; matures quickly while still maintaining quality and yield; suitable for irrigated and dryland areas.

ADV F8322 NEW
**MID-SEASON APHIX
FORAGE SORGHUM**

An excellent forage sorghum with Aphix-level, elite sugarcane aphid tolerance and a high degree of versatility in various climates.

ADV S6404 NEW
**FULL-SEASON BMR-6
SORGHUM-SUDANGRASS**

High-powered and compact sorghum-sudangrass. Next-level tonnage, great feed quality and strong standability. Top performer in multi-cut scenarios, silage, hay or grazing. Cattleman's best friend for versatility and production.

ADV S6520 NEW
**PHOTOPERIOD
SENSITIVE BMR-6
SORGHUM-SUDANGRASS**

Game-changing combination of agronomics and yield. High digestibility, great palatability, and strong disease package for overall good producibility. First-in-class sugarcane aphid tolerance. Agronomics and maturity make it a strong hybrid for an extended harvest window for silage, hay production and grazing.

AS9301
**MID-SEASON BMR-6
SUDANGRASS**

Exceptional palatability and digestibility, dry stalk for quick stalk dry-down and fast recovery after cutting with rapid regrowth; performs well in a wide range of challenging growing conditions.

AS9302
**BRACHYTIC DWARF
BMR-6 SUDANGRASS**

The first BMR-6 brachytic dwarf hybrid sudangrass, with tremendous regrowth, dry stalk for quick dry-down, high palatability and digestibility and adaptability to various climates; risk mitigation due to superior standability.
