

FORTI-SWEET

WHAT IS FORTI-SWEET?

Forti-sweet is a truly unique nutrient delivery system for horses because it suspends essential nutrients in an easy to feed molasses - based tub. The digestive system of the horses is anatomically designed to digest forage such as hay and pasture. With this in mind, any successful horse feeding program should feature forage as the foundation. Additional grains, protein and supplements need only be used to supply essential nutrients not contained in hay and pasture.

NUTRIENT PROFILE

Crude Protein	Min.	14.0%
Crude Fat	Min.	3.0%
Crude Fiber	Max.	2.0%
Calcium, (Ca)	Min.	1.5%
Phosphorus, (P)	Min.	1.0%
Copper, (Cu)	Min.	135 ppm
Zinc, (Zn)	Min.	245 ppm
Selenium, (Se)	Min.	0.90 ppm
Vitamin A	Min.	15,000 IU/ lb.
Vitamin D3	Min.	1,500 IU/ lb.
Vitamin E	Min.	100 IU/ lb.

STORAGE

Forti-Sweet Horse Supplement Tubs can be stored outdoors, in all weather conditions. Available in 35, 125 and 200 pound plastic containers.

FEEDING INSTRUCTIONS

Forti-Sweet has been formulated to be fed free-choice to horses of all ages. For horses kept in stalls, provide one Forti-Sweet (35 lb) tub per horse. Horses kept in groups should be provided with a minimum of one large (200 lb) Forti-Sweet tub per 5-10 horses. Typically, a horse will consume an average of 0.5 lb to 3.0 lb per horse per day, depending on forage quality and availability, amount of supplemental grain feeding, horse type, age and amount of exercise. If a horse consumes more than 3 lb

per day, the amount of forage and/or grain in the diet should be increased, thereby causing a reduction in the Forti-Sweet intake.

In addition to Forti-Sweet Horse Supplement, all horses should receive a minimum of 1% of body weight of good quality forage daily along with free-choice salt and fresh, clean water.

PATENT # 4,749,578

Sizes Available: 200#, 125# & 35#

This is an informational label only

The digestive system of the horse is anatomically designed to digest forage such as hay and pasture. With this in mind, any successful horse feeding program should feature forage as the foundation. Additional grains, protein and supplements need only be used to supply essential nutrients not contained in hay or pasture. To supply horses with nutrients which typically are marginal in forage, Postive Feed is proud to present "Forti-Sweet" Horse Supplement. Forti-Sweet is a truly unique nutrient delivery system for horses because it suspends essential nutrients in an easy to feed molasses-based supplement. Forti-Sweet can be fed free-choice to individual horses kept in stalls and to large groups of horses on pasture.
