FEEDING DIRECTIONS

XLTM Senior Select is formulated for the senior performance horse and for maintenance of older horses. This feed provides the extra energy, highly digestible fiber and vitamins and minerals needed for optimum body condition plus added fat for higher calorie intake and improved hair coat.

Mature Performance Horses

Feed 1 1/4 to 1 1/2 pounds per 100 lbs. of body weight per head per day plus hay. Adjust amount of feed according to work and activity level and desired body condition.

Mature Horses at Maintenance

Feed 1 to 1 1/4 pounds per 100 lbs. of body weight per day plus hay. Adjust feed intake to achieve desired body condition.

◆ *Always provide plenty of fresh, clean water. Bring horses on this feed gradually over a 2 to 3 week period and follow good feeding management practices.* ◆
