16% XL™ MARE & FOAL PELLET

Scientifically designed to help prevent developmental orthopedic disease of the growing foal.

16%
PROTEIN

4.0%
FAT

10%
FIBER

16% XL™ Mare & Foal Pellet is formulated for mares to provide nutrients for optimum development of the foal during the last trimester of pregnancy, support lactation and for foals during the critical first 12 months of growth.

- ▶ high quality protein with added lysine and methionine to provide the balance of essential amino acids needed for bone and muscle growth
- ▶ provides the required Ca, P and critical trace mineral-amino acid complexes for optimum skeletal development of the growing athlete
- ▶ Diamond V® yeast culture for improved digestive efficiency

GUARANTEED ANALYSIS
